KEY OF TIME

Sol system 2521 AD

The planetary system of our sun is new, fast and explored manned spaceships. Many people leave the earth captured by the longing to discover new worlds. Colonies and Bases are also established in the most remote locations of the Sol system.

Some brave people set out into interstellar space to travel to distant planets in our galaxy.

The "Cybernetic War", which begins in 2995 AD, stops this development.

At the end of the war in 3000 AD it will the Solar Parliament formed. Biological and biogenic humanity will form from now on together the new humanity of the Sol system.

A new era is introduced in the Sol system.

The year 1 ST (solar time) begins.

In 196 sz a small special unit is formed, which is able to research strange processes in space.

The EVEN·X

-Terra B3-

What's
going on?

Maya,
we are needed.

The two of them quickly slip into their
operational suits and climb the glider.

Gliderbot:
-Terra B3- fast.

Maya, Watch out,
we're starting.

The glider takes off into the
sky at high speed.

Terra B3. Bases like this one have sprung up all over the world. Huge systems above and below the earth, with utilities and spaceships that fly from here through the entire solar system.

The base is very old.

It was built before the World Parliament was founded.

As she arrival the hangar of Terra B3, she receives the bright hum of the robots who are busy maintaining space gliders and jets.
